REASONS FOR ALLOWANCE

1. Claims 1, 2, 6, 9, 12, and 13 are allowed over the prior art of record.
2. Claims 3-5, 7, 8, 10, 11, and 14-16 have been canceled.
3. The following is an examiner's statement of reasons for allowance: The Applicant's arguments filed on 8/2/2007 are persuasive. **The feature of independent claims 1 and 9** directed towards allowable subject matter is selecting, during a first sub field of each frame, a scanning line of the plurality of scanning lines and applying the data signal to a pixel corresponding to the scanning line, and applying, during a first portion of a second sub field that follows the first sub field, a non-data signal that has a same polarity as the data signal applied to the pixel and of a maximum voltage value to a signal line corresponding to the pixel and selecting, during a second portion that follows the first portion of the second sub field, a scanning line and applying the non-data signal to the pixel. **As argued by the Applicant** and applied claims 1 and 9 Nose et al. fails to disclose the driving method for an electro-optical apparatus as recited and shown in Applicant's figure 8, wherein the second subfield has distinct activity in the first and second portions. **Therefore** the above said features in combination with the other limitations of the above independent claims 1 and 9 are found to be allowable over the prior art of record, and therefore claims 1, 2, 6, 9, 12, and 13 are allowable.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
